

Grandsire Doubles

How to write out a plain course

Write out line by line.

Make the 3rd ring a second blow in 3rds place (as shown)

Put the 2 into the lead (as shown)

Then every bell that can swap, changes place/crosses with the following bell.

The 2 plain hunts.

When the treble gets back to the lead the bell which it takes off the lead rings 2 blows in 3rds place and goes back to the lead.

(On the first lead this is the 5 as shown.)

Continue as above for the next two leads until it comes back into rounds.

When you have finished use a red pen to join the treble line up.

Use a different colour to join the path of the 3 up.
